P9-1/2-EMCP3

CAT EMCP 3 or EMCP4.2 to Deep Sea 7310 Conversion Kit

- CANbus
- Ethernet
- Modbus
- 8 Inputs
- 8 Outputs
- 6 Analog Inputs

A black ABS mounting plate with a wired and programmed Deep Sea 7310 with output relays and a colored coded CAT 70-Pin harness. Add an expansion module or a remote annunciator and you have a quick solution for a faulty OEM controller.
